Chief Johnson, accompanied by Assistants Corby and Schin, made a test of a number of the vater hydrants in the township on Tuesday afternoon. The following pressure was indicated at the several hydrants tested :

Average pressure, 291 lbs. Word was sent to the water works to put on fire pressure, when, under the increased pressure at hydrants wher no water was found, 20 lbs. was ladicated.

The Water Company, it is said, estimate their pressure equivalent to 300 feet show tide water. This would furnish an ordinary pressure of 40 lbs. at Glen Ridge. The average pressure in the lower parts of tewn should be 70 lbs. When the hydrants were first tested after the introduction of water there was a pressure of 120 lbs, and on several occasions it has been as high as 85 lbs.

SUMMER CORRESPONDENCE.

A Sketch of Saratoga's Chief Attrac-

SARATOGA, N. Y., JULY 25, 1888. One would hardly suppose that the territory comprising the beautiful village of Saratoga, where are from ten to twelve thousand regular inhabitants, could have been purchased about a century ago for \$100, but the fact is alleged by one of

Saratoga County's "oldest inhabitants." The principal attraction of Saratoga, one need hardly mention, is the celebrated springs-thirty or more of them, combining almost every imaginable medicinal rirtue, among which the most noted is and quietly listened to the the Congress Spring. It is situated beneath a magnificent pavilion, in a park of the same name laid out and fitted up at fabulous expense, rendering it the most beautiful and attractive point in Saratoga. Next in prominence is the wonderful Hathorn Spring-a powerful cathartic water. This is frequented by hundreds of the elite of the great hotels, between the hours of seven and nine A. M., and here the most elegant accommodations for drinking this celebrated water, both hot and cold, may be enjoyed.

> The old Empire Spring-the property of the Congress Spring Company-also takes high rank among the visitors as a medicinal water, and last but not least are the marvelous Geyser and Champion spouting springs, situated a short distance from the city. Among the tonic waters are the Vichy, Hamilton, Columbian, and the Imperial. Time and space will not permit a fuller description of the less important springs-all valuable and suited apparently to the needs of almost every constitution. Just where to commence and where to leave off is not an easy task in writing them up.

> The provision made for debilitated folk from the laboratory of the ages beneath one's feet, and coming to the surface so freely, inspires one with wonder and admiration. Nature and art seem to have done their utmost in providing the attractions of this beautiful village-the only Saratoga in the world.

The greatest suburban magnet is Mt. McGregor-the last home of General Grant-by reason of which reminiscence very many Saratoga visitors are attracted to the place, making it as popular if not as hallowed a spot as Mount Vernon.

The beautiful Saratoga Lake, situated about four miles from the village, has lost none of its old attractiveness. Among the innovations at Moon's Lake House is a superb band of music.

Anent the present season, the boarding houses are well filled, but the large ho tels, including the Congress, Windsor, United States, Kensington and Grand Union, are as yet but partially full, the season commencing later than usual. Stylish and wealthy patrons, however, are beginning to arrive. Among the guests at the houses just mentioned we find a wide variety of people, intellectually and morally considered, characterizing in a peculiar way our complex American civilization. There are prominent politicians, dignified clergymen, mushroom millionaires, with a sprinkling of sporting men, and genteel gamblers. The usual array of beautiful and attractive women at the concerts in Congress Park, and on the spacious piazzas of the large hotels, give a bright coloring to the picture, the like of which, as a cosmopolitan "study"

of society at its best, is incomparable. In closing this letter, a complimentary word may be penned in praise of Judge Hilton's efforts in adding to the attractions of Saratoga. By developing and adorning Woodlawn Park he has reared an enduring monument to himself. His efforts in this direction are highly appre clated and thoroughly enjoyed by the visitors at this famous resort.

GLASS BOTTLES!

PURE JERSEY or ALDERNEY MILK in QUART GLASS BOTTLES will be delivered by me, and the patronage of the jublic is solicited. The Milk offered is warranted perfectly pure, and is from imported Jersey Cattle.

The Cattle are fed on the BEST of hay and feed, no feed being allowed them that would impair the healthfulness of the Milk. The stables and cattle are kept in the most perfect manner as to Cleanliness and

Ventilation—a most important factor if healthy milk is desired. As a table article and beverage it recommends itself, showing a larger percentage of cream than any other Milk sold. For invalids and children it is recommended by all physicians. MILK IN GLASS HAS THE FOLLOWING ADVANTAGES.

1st. It is more cleanly not being exposed to odors and contamination, to blowing dust and dirt, to the rain, to the drip and dirt from the reins or hands of the driver. 2d. Its quality may be seen at a glance by the cream at the top, and the color of 3d. It will keep sweet longer, because in delivering there is no chirping (each bottle being filled to the stopper,) and the bottles are kept iced in warm weather until

4th. Its flavor is better, because the air has no chance to act upon it, and because it is absolutely free from the metallic flavor often noticed in milk transported Parties wishing to be served can call at farm in Bloomfield, or send postal to JOHN F. MAXFIELD, Bloomfield, N. J.
